

VILA Supra-etajata

LOCUINTA UNIFAMILIALA IN ANTONY, FRANTA

PARTER + ETAJ+MANSARDA

STRUCTURA TIP OSATURA LEMN, ZIDURI EXTERIOARE DIN PANOURI LEMN CU TERMOIZOLANT ECOLOGIC (CANEPA),
 BARDAJ(ACOPERIRE EXTERIOARE) LEMN, INVELITOARE TIGLA.

- Clientul a dorit adaugarea unui etaj suplimentar peste o constructie de piatra (*meulliere*-piatra vulcanica specifica zonei). Casa se gaseste in zona de monument istoric, deci au fost respectate regulile specifice.

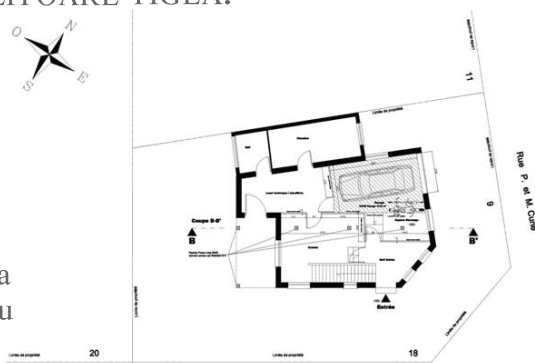

- Am proiectat o structura usoara din lemn cu o dubla izolatie termica. Am prevazut 2 balcoane si ferestre speciale cu storuri incorporate in zid. Acoperisul a fost demontat si un etaj suplimentar a fost construit peste etajul 1, o consolidare a fost deasemenea proiectata.

- Exteriorul este acoperit cu lemn special tratat.

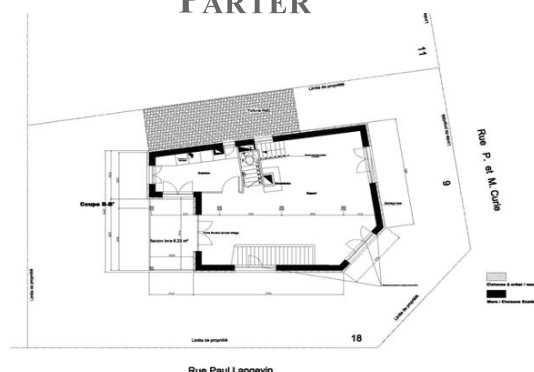

- Cladirea este echipata cu panouri solare pentru incalzirea apei menajere.

Suprafata nou Construita: 56 m²

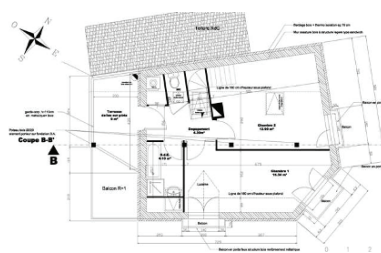

Pret lucrare: 34.000 €
